PROJECTS

ChillTrack HVAC Inventory Tracker | <https://github.com/Jbrockhoff/HVAC-Inventory-Tracker> | <https://chilltrack-4a728d00a787.herokuapp.com/>

- This application was created to track inventory for an HVAC professional. The inventory provides the necessary information so that the same user may also create and save invoices with summaries in a separate section, accessible from the user dashboard.
 - Repository owner and one of two contributors
 - Express.js, handlebars.js, JavaScript, HTML, CSS, Bootstrap, npm

Note Taker | <https://github.com/Jbrockhoff/Note-Taker> | <https://frozen-cliffs-63898-85cbe2592bad.herokuapp.com/>

- This application was created for a user to input, view, and delete personal notes.
 - Creator, repository owner
 - JavaScript, HTML, CSS, Express, Node.js

Daily Scheduler | <https://github.com/Jbrockhoff/Daily-Scheduler> | <https://jbrockhoff.github.io/Daily-Scheduler>

- This application was created for a user to put in and save daily events. It is color coded so that open times are green, past times are gray, and the current time is red.
 - Creator, repository owner
 - JavaScript, HTML, day.js, and CSS

EXPERIENCE

Classroom Supervisor/Lead Teacher
Johnson County Community College

2020 – 2024
